

# In touch with Askham Bryan

## March 2021

*A regular newsletter to let you know what is happening at Askham Bryan College*

### Campus Spotlight – Stewart Park Middlesbrough

Askham Bryan College Middlesbrough is the newest and oldest campus of the College. The original Central Lodge building was once the residence of Middlesbrough's first Mayor and industrialist Henry Bolckow.

Refurbishment revealed many discoveries including this panel of tiles set into the wall.

Who would have thought that a building initially built in the 1860s as a stable with up to 22 horses and two carriages would, after 160 years, be used by modern day students to receive education on Level 2 & 3 equine programmes in Teesside?

Other courses available at Middlesbrough are Animal Management & Care, Foundation Learning, and Land & Wildlife Conservation.

We look forward to welcoming you when we can!

### Forestry / Arboriculture:

Current student Hazel Irving has been awarded the prestigious Royal Horticultural Society (RHS) Plant Health Summer Scholarship. She will work for eight weeks at RHS Wisley examining the impact of powdery mildew disease on garden plants.

### Floristry:

Our Floristry team put together beautiful selections of orchids, hydrangeas and jasmine to help Askham Bryan's staff and students celebrate Mother's Day.

### UCAB:

Our University Centre students welcomed Sabrina Brando, a globally-renowned animal welfare scientist, for a lecture on optimal wellbeing for both animals and humans.

### Uniformed Public Services:

We are currently developing a new policing pathway aimed at developing students' knowledge, skills and understanding relating to working in the police service. The course has a specific focus on leadership, physical fitness, equality, diversity and inclusion. More details available soon on our website.

### Land Based Technology:

Our Engineers were busy this week stripping, inspecting and rebuilding JCB power shift transmissions and a 3 cylinder Kabota engine!
